

GALILEO SCHOOL

PRIVATE KINDERGARTEN

Principle: Mgr. Terézia Bajarúnas

Deputy: Mgr. Jana Slivová

School year 2022-2023

See you on **Monday 5.9.2022.**

The daily entrance to the kindergarten will take place through the front gardens of the classrooms, where the morning filter of the children will take place (temperature measurement, symptom-free check). If necessary, entry through the main entrance is possible as well.

According to the decision of the Minister of Education, a parent may excuse a child with compulsory pre-primary education for 7 consecutive school days (weekends and holidays are not counted) also due to illness. In the absence of more than 7 consecutive school days due to illness, child with compulsory pre-primary education must present a "Confirmation from a doctor" from a general practitioner for children and adolescents who is aware of the ongoing illness (with no limit on the number of excuses during school year). Parents of other children (not in compulsory pre-primary education) do not submit a "Confirmation from a doctor".

For the school year 2022/223 Galileo School Kindergarten has following classes opened:
